Portfolio 

Frontend Developer with more than 2 year of experience, I've worked with technologies like **HTML**, **CSS**, **SASS**, **TailwindCSS**, **JavaScript**, **GIT** & **GITHUB**, **ReactJS**, **NextJS**, and **Astro CMS WordPress** as well. Currently, I'm looking for a job in a company that allows me to develop and grow my career. I am a person fell in love with technology, I like create websites and webapps, I love developing features. I hope find a company to support with my skills and enthusiasm. So, I am sure I will have the possibility to working in a amazing company. I know about **Nodejs** though I'm improving this skills.

## PROFESSIONAL PROFILE

I don't have experience working in a company, but I have experience **developing websites and webapps** for my personal projects.

Learned to work as a team for three years while I worked as a Civil Engineer

Developed five projects with **WordPress** among them, landing pages and websites corp and e-commerce.
